

Unit 1

Unidad 1

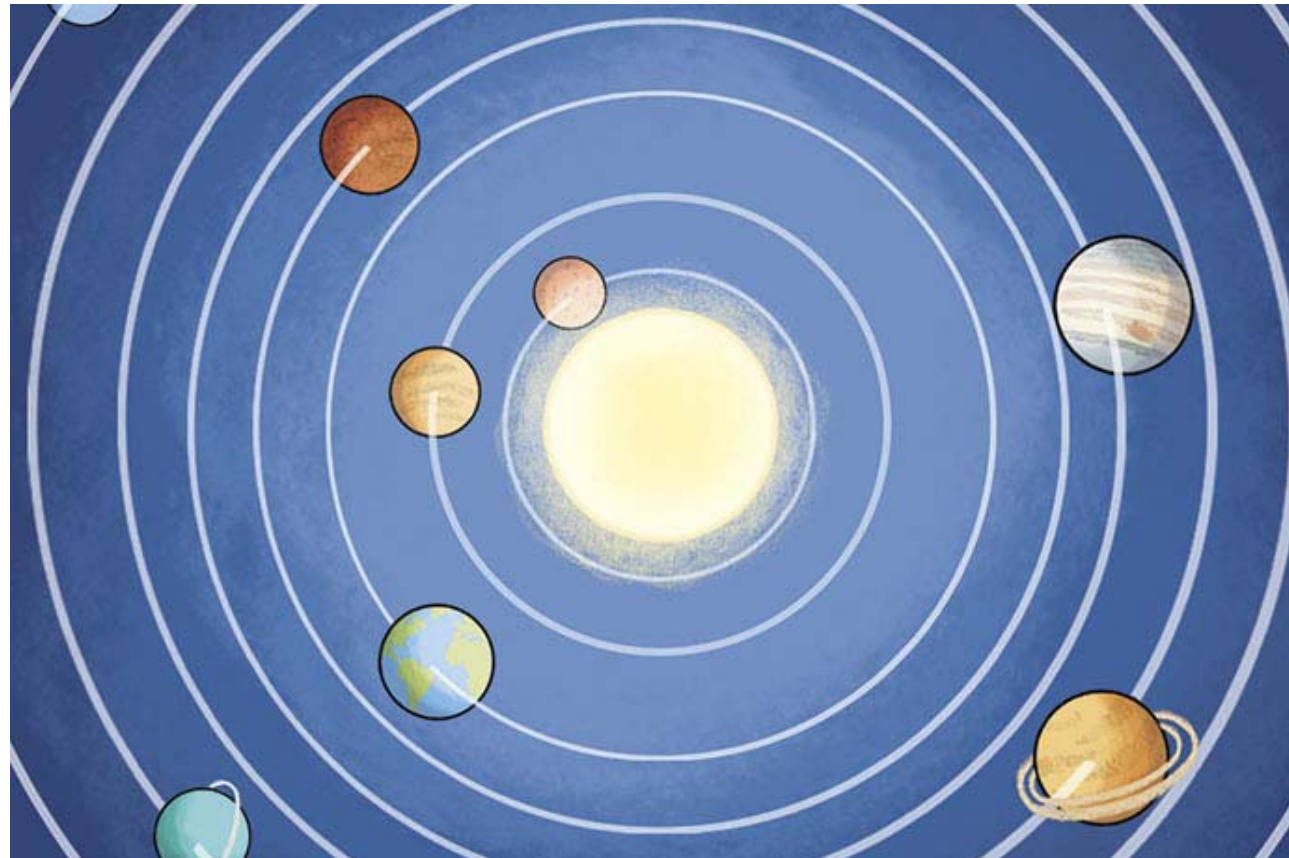

THE SOLAR SYSTEM (EL SISTEMA SOLAR)

There are eight planets in the solar system.

Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus and Neptune.

All the planets move around the Sun. This movement is called **revolution** (todos los planetas, giran alrededor del sol . Ese movimiento se llama traslación)

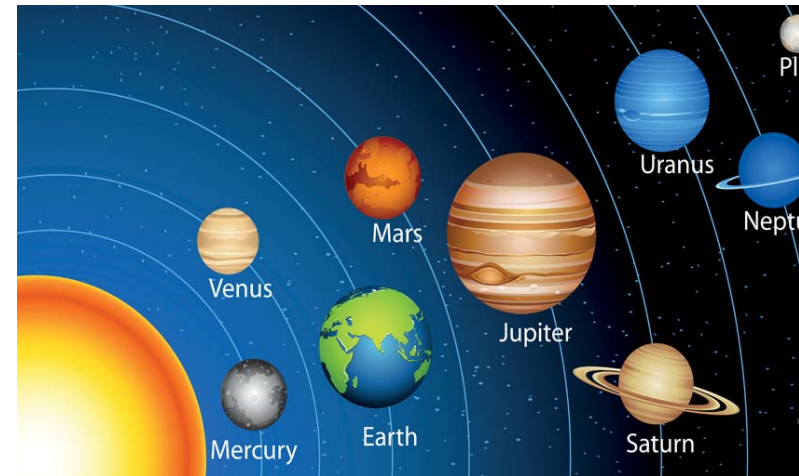

The Sun is a star (el sol es una estrella)

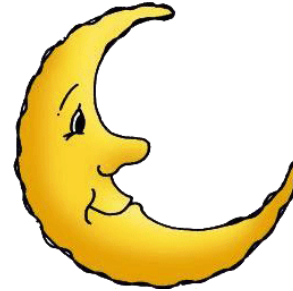

The Sun is at the center of the Solar System

(El Sol esta en el centro del Sistema Solar)

We live on the Earth (nosotros vivimos en la Tierra)

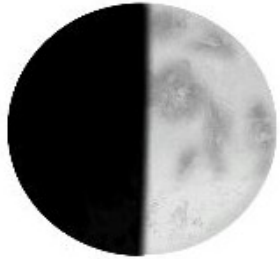

The moon is a **satellite** because it moves around the Earth (la luna es un satélite porque gira alrededor de la Tierra)

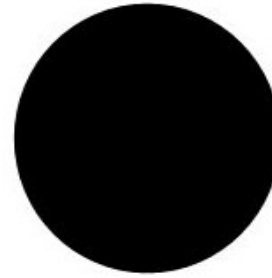

*The Earth is always turning on its axis, this movement is called **rotation** and so we have day and night (La Tierra gira sobre su propio eje, ese movimiento se llama rotación y por eso tenemos el día y la noche)*

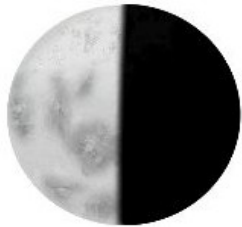

The phases of the moon (las fases de la luna)

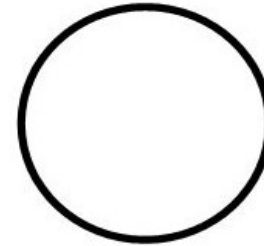

Third quarter

Full moon

First Quarter

New moon

The Earth takes one year to complete one revolution around the Sun.
(La Tierra tarda un año en dar la vuelta alrededor del Sol)

There are twelve months in a year and four seasons.
(Hay doce meses en un año y cuatro estaciones)
